

Ariba Consulting Services

PLATFORM IMPLEMENTATION SERVICES

Optimize the business impact of Ariba with Platform Implementation Services from Shelby.

How can your company facilitate rapid adoption, ensure compliance with new procurement processes, and leverage Ariba to maximize its impact on your business?

Ariba's industry-leading, cloud-based commerce applications and network enable companies to quickly and affordably adopt procurement best practices and optimize spend. However, the manner in which you plan, deploy and integrate Ariba can impact your business results. Low utilization of features and misalignment with business stakeholders and processes can limit the success of any cloud-based software deployment.

Ariba Consulting Services: As a leading Ariba Consulting Provider since 2002, The Shelby Group has helped companies in fields including financial services, health care, waste management, energy and management consulting optimize the success of their Ariba deployments.

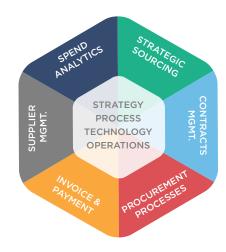

Our services include:

- Organizational Assessment and Validation
- Business Policy and Process Analysis and Development
- Solution Selection and Optimization for Ariba Network and Ariba SaaS Options
- Implementation Planning, Execution and Operational Help Desk Support
- Success Metrics Enablement
- IT Integration and Supplier Enablement
- Change Management and User Adoption Support

Business Benefits: Shelby's global services can help you achieve these important business benefits:

- Faster time to enterprise-wide adoption
- Key Business Partner and Stakeholder Alignment
- Increased spend under management and compliance
- Increased savings and spend visibility
- Reduced operating costs
- Automated manual processes to reduce cycle times
- Adoption of Procure-to-Pay (P2P) industry best practices

The Shelby Group leverages its deep understanding of enterprise procurement processes and technology to maximize savings and optimize business results throughout the procurement lifecycle. Whether you want to create sustainable procurement savings, maximize utilization of current tools, deploy or upgrade new software, move to the cloud, or outsource operations, partnering with Shelby pays off.
