Contracts Management

PROGRAM OPTIMIZATION SERVICES

Proactively manage compliance, supply chain risk and negotiated savings across the enterprise.

Contractual agreements, clauses, and terms and conditions serve as the foundation for business relationships. In today's increasingly litigious business environment, procurement organizations are being asked to become more proactive stewards of the Contracts Management process. Does your company need to improve its ability to manage contracts across the enterprise? An effective, enterprise-wide Contracts Management program can enable you to better manage contractual obligations, mitigate risks and save money.

The Contracts Management Challenge: It will take more than the right technologies to transform your company's ability to manage the contract lifecycle. It requires creating technology-enabled processes and workflows to more efficiently meet the needs of stakeholders and the ability to facilitate adoption among users who may be resistant to change.

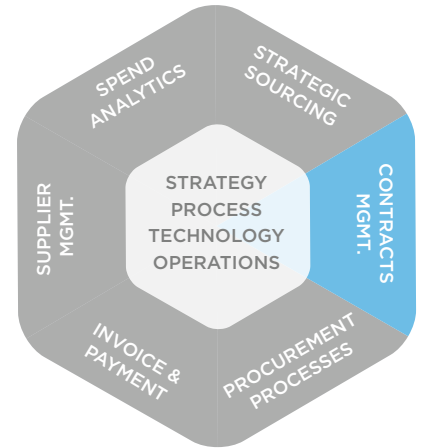

Contracts Management Optimization Services: Shelby can help you bring increased transparency and control to the Contracts Management lifecycle, from contract request and authoring through to negotiation, acceptance and termination. The Shelby team has the experience to help you better manage ongoing contract administration and increase savings through realization of discounts and terms. We can help you:

- Assess/refine/develop your Contracts Management strategy
- Build a centralized Contracts Repository
- Enable online authoring and electronic signatures
- Implement compliance and risk reduction processes
- Bring visibility to rogue processes and off-contract spending
- Create workflows for integrating Contracts Management into Strategic Sourcing and Supplier Management

Business Benefits: Shelby's Contracts Management Optimization Services can help you achieve these important business benefits:

- Speed contract authoring and approval
- Capture negotiated savings
- Reduce legal/compliance risks and costs
- Curtail savings leakage
- Decrease risk of fines and penalties

The Shelby Group leverages its deep understanding of enterprise procurement processes and technology to maximize savings and optimize business results throughout the procurement lifecycle. Whether you want to create sustainable procurement savings, maximize utilization of current tools, deploy or upgrade new software, move to the cloud, or outsource operations, partnering with Shelby pays off.
